Course Overview
Art Appreciation is an introduction to the principles and concepts used in the study and analysis of the fine arts, in order to achieve a basic understanding of art and artistic concerns. Art Appreciation studies the major cultural achievements and significant artistic works that have shaped Western culture.

The approach to this course is to study the arts in an historical context beginning with the earliest artistic expressions of ancient societies and extending to twentieth century. The student will develop an understanding and appreciation of art by understanding its purpose, terminology, various disciplines, and its history. We will discuss the basic vocabulary of art and the different mediums used. The major concentration of this course will be the visual arts.

A variety of learning methods will be used in order for students to become familiar with art, artists,
and art making. Through reading, online discussions, and various related web sites, students will receive a broad introduction to the nature of art.

It is my hope that in taking this course you will develop a greater understanding of art, heighten your awareness of what we respond to in a work of art, and to develop an appreciation of why what an artist has done is important.

During this session you will see many diverse works of art. Some you will like others you may not. It is not my goal to try and convince you to like any work of art, but to share some of what is known about them so that a deeper understanding may begin. Then, when you look at a work of art you like or dislike, you may say "I love it" or "I hate it, but at least I understand it."

In addition to responding to the instructor’s prompt, you are also required to read your classmates’ posts and respond to a minimum of two of your classmates’ comments. Peer discussion responses should be posted by 11:59 pm CT Saturday of the assigned week.

Posting thoughtful, stimulating responses is encouraged. While participation posts do not need to be as detailed or thorough as your primary post, they should be though provoking and contribute to the topic and conversation in a meaningful way. Responses are also graded, so give your responses thought.

Your Discussion grade will be based on the level of thought you gave the topic and your responses to other students’ remarks. Discussion postings will be graded according to the Discussion grade criteria in the Content area. Discussion grades are posted on the Monday after the discussion topics are due. I do not post grades as you post your response because I cannot be sure when you are done participating. It works best to wait until the weekly topic has ended to post grades.

Please note: Discussion Topic responses should be entered as text, not document attachments. Discussion posts or participation responses posted as a document will receive zero credit.

Quizzes (Online)

Each week you will complete a 50 point quiz over the material we’ve covered for the week. They are comprised of multiple choice and/or matching questions, and should be completed once you have completed the assigned material for the week. Quizzes are self-grading and your score will be posted once you submit your quiz. Correct answers are released on Mondays after the quiz availability period has ended. Quizzes should be completed by 11:59 pm CT Sunday (except for week 8, due Saturday).

Midterm Paper: Formal Analysis (Online)

The Midterm Paper is worth 100 points. It will consist of a one- to two-page written description and analysis of a work of art using terminology from Chapters 2-5. This is an exercise in recognizing visual elements and principles of design in works of art and demonstrating an understanding of how they relate to each other to create meaning.

In many cases, students draw from the text and other resources to aid in their descriptions and analysis. If you reference a source other than the text, please cite this reference according to the APA or Chicago Manual of Style. The use of any secondary reference without providing citation is plagiarism and will receive a score of 0. Repeated incidents of plagiarism are reported to the Academic Affairs Office and the student receives an “F” grade in the course.

The preferred format to complete the Midterm Paper is Microsoft Word (.doc or .docx). If these formats are not available, other acceptable formats are ASCII (.txt), rich text format (.rtf), and Open Office (.odt).

The Midterm Paper is due by 11:59 pm CT Sunday of Week 4. Details and requirements can be found in the Content area.

Final Paper: Museum Visit (Online)

The Final Paper will be an investigation of a work of art and the artist who created it. You are required to visit a reputable art museum in your area and select a work of art to discuss and critique in a formal, iconographic, and historical context. The Final Paper is worth 200 points. Your grade will be based on the depth of your analysis of the subject.

Depending on class size, we will plan to present during Week 8, however, if we have a large class size some may need to present in Week 7. We will discuss this during our In Seat classes.

Course Schedule

Introductions (Online)

Introduce yourself to the class in the "Introductions" Discussion Forum. Tell your classmates a little about yourself, including your personal or professional life, your interest in art, and anything else you think will be interesting. Include also why you are taking this course and what you hope to learn. Introduction posts are due 11:59 pm CT Wednesday.

Discussion 1 (Online)

- **Part 1:** Respond to the question "What is Art?" After reading Chapter 1 and looking at other sources for a definition of art, compile a list of different definitions of art to share with the class. Be sure to include citations for all your sources in APA format. Then, in your own words, devise a definition of art that has meaning for you. What purpose do you feel the visual arts serve? What gives art meaning? Share your thoughts with the class.

- **Part 2:** Select a work of art from the WikiArt website, or another reputable source to share with the class. Why do you consider this work "art"? Include the artist’s name, title of the piece, and cite the source of the image.
Your initial online discussion post and responses to **at least two** other students are due by **Saturday at 11:59 pm CT**.

**Discussion 2 (Online)**

In this week's discussion we will explore the relationship between form, content, and subject matter. As we discovered last week, two sculptures of a kiss can have quite different meanings.

Take a look at the sculptures by Giacometti on page 42 and Moore on page 431 in your text. Both pieces are good examples of the relationship between form, content, and subject matter. How do you feel the form of each sculpture expresses the content? What specific characteristics give us clues and communicate meaning?

Next, select a 3rd work of art from the text and discuss how the form and content relate. Identify at least 5 visual elements and/or principles of design in your analysis of the third piece.

Your initial online discussion post and responses to **at least two** other students are due by **Saturday at 11:59 pm CT**.

The teacher maintains the right to manage a positive learning environment, and all students must adhere to the conventions of online etiquette.

**Plagiarism**

Your grade will be based in large part on the originality of your ideas and your written presentation of these ideas. Presenting the words, ideas, or expression of another in any form as your own is plagiarism. Students who fail to properly give credit for information contained in their written work (papers, journals, exams, etc.) are violating the intellectual property rights of the original author. For proper citation of the original authors, you should reference the appropriate publication manual for your degree program or course (APA, MLA, etc.). Violations are taken seriously in higher education and may result in a failing grade on the assignment, a grade of "F" for the course, or dismissal from the College.
Collaboration conducted between students without prior permission from the instructor is considered plagiarism and will be treated as such. Spouses and roommates taking the same course should be particularly careful.

All required papers may be submitted for textual similarity review to Turnitin.com for the detection of plagiarism. All submitted papers may be included in the Turnitin.com reference database for the purpose of detecting plagiarism. This service is subject to the Terms and Conditions of Use posted on the Turnitin.com site.

A plagiarism tutorial is located in the content area of the D2L website. Additionally, work that was completed in a prior course and submitted in the current course will not be accepted.

Non-Discrimination

There will be no discrimination on the basis of sex, race, color, national origin, sexual orientation, religion, ideology, political affiliation, veteran status, age, physical handicap, or marital status.

Disability Services

Students with documented disabilities who may need academic services for this course are required to register with the Coordinator for Disability Services at (573) 875-7626. Until the student has been cleared through the disability services office, accommodations do not have to be granted. If you are a student who has a documented disability, it is important for you to read the entire syllabus before enrolling in the course. The structure or the content of the course may make an accommodation not feasible.

Attendance Policy

Attendance for a week will be counted as having submitted a course assignment for which points have been earned during that week of the session or if the proctoring information has been submitted or the plagiarism quiz taken if there is no other assignment due that week. A class week is defined as the period of time between Monday and Sunday (except for Week 8, when the week ends in accordance with the campus end date). The course and system deadlines are all based on the Central Time Zone.

Email

All students are provided a CougarMail account when they enroll in classes at Columbia College. You are responsible for monitoring email from that account for important messages from the College and from your instructor. You may forward your Cougar email account to another account; however, the College cannot be held responsible for breaches in security or service interruptions with other email providers.

Students should use email for private messages to the instructor and other students. The class discussions are for public messages so the class members can each see what others have to say about any given topic and respond.

Late Assignment Policy

A hybrid class requires regular participation and a commitment to your instructor and your classmates to regularly engage in the reading, discussion and writing assignments. Although most of the communication for this course is asynchronous, you must be able to commit to the schedule of work for the class for the next eight weeks. You must keep up with the schedule of reading and writing to successfully complete the class.
