The purpose of this document is to provide you with important information regarding the COLUMBIA COLLEGE and the plan’s designated investment alternatives under the Lincoln Individual Fixed Annuity, including fee and expense information, to help you compare investment options in accordance with Department of Labor (DOL) Regulation section 2550.404a-5 (“404(a) participant fee disclosure”).

Information presented throughout this entire document is specific to the plan’s designated investment alternatives only under the Lincoln Individual Fixed Annuity. Please contact your retirement plan administrator for more information.

If you would like additional information regarding your plan’s designated investment alternatives, you may visit the specific website addresses shown throughout this document or you may contact your retirement plan administrator at 573-875-7495 or ATTN HUMAN RESOURCES, 1001 ROGERS ST, COLUMBIA, MO 65216. A free paper copy of the information may be obtained by contacting your retirement plan administrator at 573-875-7495.

Every effort has been made to ensure that this disclosure is as thorough and accurate as possible to reflect the legal documents, laws, and regulations that govern the operation of the plan. In the event of any conflict, the terms of the plan document, investment arrangements, applicable laws, and regulations will govern.

Document summary
There are several sections that comprise the 404(a) participant fee disclosure:

- **General plan information section** provides general information regarding plan features and designated investment alternatives, such as an explanation of how to give investment instructions, if applicable.
- **Plan fees and expenses**
  - **Individual participant fees section** provides an explanation of any fees and expenses that may be charged to or deducted from your retirement account based on the actions taken by you. Examples may include fees and expenses for plan loans and for processing surrender charges, if applicable.
- **Comparative charts** provide a current list of the investment options with performance and fee information for designated investment alternatives in comparative chart format.

General plan information
To direct your designated investment alternatives for the plan:

For initial enrollment, you may enroll by completing the materials and returning them as indicated on the documents provided during the enrollment process.

Existing participants may update elections by:
- Visiting LincolnFinancial.com, or
- Calling the Lincoln Customer Contact Center at 800-454-6265

You may change your elections at any time; transfers are effective the same business day provided the markets are open and instructions are received before 4:00 p.m. Eastern Time.

The Lincoln Individual Fixed Annuity may restrict the number of transfers you may make among designated investment alternatives within the product in a given time period. An investment option may apply a redemption fee or restrict certain transfers. However, transactions associated with market timing – such as frequent, large, or short-term transfers among investment options – can affect the underlying funds and their investments. Lincoln therefore reviews the number of transfers that a participant makes within given periods of time to determine if any transfer attempts to capitalize upon short-term movements.
in the equity markets (Market Timing Policy). If so, the participant's transfer activity will be subject to further scrutiny. Potential market timing or frequent trading may result in future trading restrictions, up to and including temporary (or permanent) revocation of telephone exchange privileges.

Voting and tender rights associated with mutual fund shares offered under the plan are exercised by the plan sponsor, if applicable.

Should you take a loan, interest will be assessed as disclosed in the Contract Loan Request and the Truth in Lending Disclosure Statement that is provided at the time of loan initiation. Currently, the interest payment is 7.0%, from which a portion is used to pay for loan administrative and maintenance fees. The remainder is credited to your plan balance.
Plan fees and expenses

This section provides an explanation of fees and expenses for general plan administrative services, if any, that may be charged to or deducted from all individual accounts and are not reflected in the total annual operating expenses of any designated investment alternative. For example, the plan may incur general administrative expenses each year to cover services related to the operation of the plan (e.g., legal, accounting, recordkeeping, trustee fees, and Registered Investment Advisor fees). Where applicable, the plan may charge a portion of these expenses to participant accounts if the expenses are not paid by the plan sponsor or from revenue sharing payments the plan receives from plan investment options. These expenses will appear on your quarterly retirement statement, if applicable.

Additionally, an explanation of any fees and expenses that may be charged to or deducted from the individual account of a specific participant based on the actions taken by that person are described below. The dollar amount of fees and expenses that are actually charged to a participant’s account during the preceding quarter will be reflected on the participant's quarterly retirement statement.

Individual participant fees

The plan applies fees to individual participant accounts. These charges apply only to participants who use specific features of the plan. Here is a list of individual participant fees associated with this plan:

Comparative chart summary
This section is comprised of three charts:

Chart 1
• Variable return investments chart
  - comprised of performance information for plan investment options
  - illustrates the past performance of the investments with the benchmark field

Chart 2
• Fixed return investments chart
  - displays those funds with a fixed rate of return

Chart 3
• Fees and expenses chart
  - displays the fees and expenses you will pay if you invest in a particular option

COLUMBIA COLLEGE investment options comparative chart

Chart 1 - Variable return investments
Chart 1 focuses on the performance of investment options that do not have a fixed or stated rate of return. The chart illustrates how these options have performed over time and allows you to compare them with an appropriate benchmark for the same time periods.

Past performance does not guarantee how the investment option will perform in the future. Your investment in these options could lose money. Information regarding an option’s principal risks is available at LincolnFinancial.com.

Lincoln reserves the right to adjust the fixed or stated rate of return prospectively during the term of the contract or agreement. The most current rate of return is available at 800-454-6265.

If the Guaranteed Minimum Interest Rate listed above is higher than the Portfolio rate and/or the New money rate, Lincoln's Guaranteed Minimum Interest Rate will be the actual rate credited to your account.

Chart 3 – Fee and expense information

Chart 3 displays fee and expense information for the investment options listed in the prior two charts (Chart 1 and Chart 2). It indicates the total annual operating expenses of the options in Chart 1. Total annual operating expenses are expenses that reduce the rate of return of the investment option. This chart also shows shareholder-type fees. These fees are in addition to total annual operating expenses.

Frequent trading policy: Transactions associated with market timing – such as frequent, large, or short-term transfers among investment options – can affect the underlying funds and their investments. Lincoln therefore reviews the number of transfers that a participant makes within given periods of time to determine if any transfer attempts to capitalize upon short-term movements in the equity markets (Market Timing Policy). If so, the participant's transfer activity will be subject to further scrutiny. Potential market timing or frequent trading may result in future trading restrictions, up to and including temporary (or permanent) revocation of telephone exchange privileges.

Total annual operating expense: Expenses that reduce the rate of return of the investment option.

Net Operating Expense: Total annual operating expense net of Mortality & Expense Ratio and any applicable fund company waivers/reimbursements.

The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. For an example of the long-term effects of fees and expenses on your retirement account, visit the Department of Labor website at http://www.dol.gov/ebsa/publications/401k_employee.html. Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to consider whether an investment in a particular option, along with your other investments, may help you achieve your financial goals.
