Total 36 hours

Your degree requirements

The information contained in this brochure relates to the 2017-18 academic year and is subject to change. Please refer to Catalog.CCIS.edu for the most current information.

What you’ll learn

Columbia College endorses national certification of teachers, and has adopted the core proposals of the National Board for Professional Teaching Standards as goals of the program. When conducting best practice, teachers:

- Are committed to students and their learning
- Know the subjects they teach and how to teach those subjects to students
- Are responsible for managing and monitoring student learning
- Think systematically about their practice and learn from experience
- Are members of learning communities

To achieve these goals, faculty will engage you in active learning, research in field situations, problem solving, discussion and constant exploration of best practice for optimizing your learning environment for students.

Add-on Certifications

Certificate programs are available at select locations for students who are certified teachers. The following certifications are available:

- Mild/Moderate Cross Categorical Special Education
- Gifted Education
- Reading Specialist

Students wishing to pursue an add-on certificate need to work closely with their academic advisor to fulfill certification requirements.
