These figures were sourced from the Bureau of Labor Statistics, (U.S. Department of Labor, Occupational Outlook Handbook, 2016-17 Edition, BLS.gov/OOH) and represent the 2016 median pay for these occupations nationally. Earning your degree does not guarantee that you will earn these amounts.

Earn your degree with Columbia College!

Columbia College is a private, nonprofit institution that’s been around since 1851. Students look to us when:

- They need a quality, accredited degree but not the debt that often comes with it (who does?). **Our tuition is half the national average** and financial aid may also be available to help manage costs and minimize debt.
- They need the flexibility of evening and online classes to fit school around their schedule.
- They need their degree fast, **like three and a half years for a bachelor’s fast or 20 months for an associate.**
- Going back to school seems daunting, but less so with small classes, accessible professors and free tutoring services to help with coursework.

Let’s talk about how we can help you earn your degree. Call, email or start by applying today!

Study Management Information Systems

The Management Information Systems program combines a thorough grounding in computer information systems and the business knowledge to understand how systems improve and optimize business performance.

According to the U.S. Bureau of Labor Statistics, the number of information systems jobs is expected to grow by 12% by 2024, faster than the national average for most occupations. In addition, average salaries for graduates are also much higher than the national average for most occupations.

Columbia College offers a Bachelor of Science in Management Information Systems.

What you’ll learn

You will complete courses in information systems for businesses, with an emphasis on software development and database design. You’ll also cover analysis, project management, finance, statistics, and choose electives from a range of business or computing courses.

Your degree requirements

Bachelor of Science in Management Information Systems

General Education Requirements 38-41 hours

Multicultural Requirement 3 hours

Computer Information System Core Requirements 27 hours
