Advance your nursing career

BSN nurses are in high demand in the health care industry, offering greater career opportunities to graduates in a range of settings. In fact, the U.S. Institute of Medicine recommends that

80% of all nurses hold a BSN degree by the year 2020.

Courses in the BSN program at Columbia College are designed to enhance your complex clinical reasoning, decision-making and collaborative skills so you can make a greater impact on patient safety and quality processes. Upon completion, you will be prepared to assume advanced roles in nursing management. Get ahead of the curve and earn your degree now.

Earn your degree with Columbia College!

Columbia College is a private, nonprofit institution that's been around since 1851. Students look to us when:

- They need a quality, accredited degree but not the debt that often comes with it (who does?). Our tuition is half the national average* and financial aid may also be available to help manage costs and minimize debt.
- They need the flexibility of evening and online classes to fit school around their schedule.
- They need their degree fast, like three and a half years for a bachelor's fast or 20 months for an associate.
- Going back to school seems daunting, but less so with small classes, accessible professors and free tutoring services to help with coursework.

Let's talk about how we can help you earn your degree. Call, email or start by applying today!
