About Columbia College

Columbia College was founded in Columbia, Missouri, in 1851 and provides associate, bachelor’s and master’s degree programs to more than 25,000 students each year at 35+ locations and online. Columbia College is accredited by the Higher Learning Commission.

Why Columbia College?

It’s simple. Our goal is to make a great education available to you at a great price.

- Six class sessions each year mean that you can complete your degree quickly.
- In-class and online course options (where available) give you the flexibility to fit your degree around your other commitments.
- Our tuition is less than the national average for private and public schools, so you could save thousands on your accredited degree.
- Small class sizes mean more personal attention and help from your expert instructors, all of whom hold a master’s or doctoral degree.

BACHELOR’S in Computer Information Systems

Columbia College-San Luis Obispo
University Partner Center
Building 2700-A at Cuesta College
San Luis Obispo, CA 93403

Phone: (805) 593-0237
Email: sanluisobispo@ccis.edu
Why study computer information systems?

Employment of computer and information technology occupations is projected to grow 12 percent from 2014 to 2024, faster than the average for all occupations. In addition, the average salary for these occupations is more than double the national average for every occupation. This could position you well for career and income opportunities after graduation.

What will I learn?

In the program you’ll take courses on systems design and analysis, increasingly complex programming, accounting, operating systems, software engineering and many more. You’ll have the opportunity to explore graphic design, Python, Java and COBOL programming and classes such as business finance and management.

The skills and knowledge you develop in the Computer Information Systems program will help you excel in the workplace from day one.

What does Columbia College offer?

Columbia College offers a Bachelor of Science in Computer Information Systems degree.
